Don,

I would like to thank you and your staff for providing End User Training and a Train the Trainer class on the Petzl Exo AP escape system for the Hillside Fire Department.

Each and every instructor made sure that all firefighters were comfortable with each step before performing the bail out. They gave each member personalized individual attention, which allowed them to complete the jumps at their own pace. If anyone had questions or concerns they were addressed immediately.

All members were impressed with the instructors' knowledge and professionalism. The training that the department received far exceeded our expectations. We are looking forward to working with you and your staff again in the future.

Sincerely,

A handwritten signature in black ink that reads "Captain Ed Trela".
