Wall, N.J. 07719

Dear Don,

I just wanted to take the opportunity to thank you for everything that you did to assist our Department in purchasing the Sterling FCX Escape Systems for our members as well as the training in their use. First, you took the time to come down to Cape May County and allow myself and Captain Johnson to demo all of the systems available to find the system that we liked best. This allowed us to make an informed decision with which system we were going to purchase. When we were awarded the grant through the Lt. Joseph P. DiBernardo Memorial Foundation you quickly processed our order for the systems and scheduled the training. I would also like to thank your instructional staff who trained our firefighters over the course of two days. Over the two days, 25 members were trained and conducted over 225 bailout jumps. We had 7 members also complete the Train-the-Trainer course. We found your instructional staff to be very professional, knowledgeable, and personable. Not only did they provide the required training competencies they offered additional tips to enhance the overall training experience.

In closing, it was a pleasure dealing with you and your instructors over the course of this process. Thank you for your dedication to firefighter safety and survival. I personally know that our firefighters are now safer being equipped with escape systems and because of the training that your company provided.

Yours in the Fire Service,

Daniel M. Dunn
