**Subject:** Thanks for the excellent training

Hi Don,

As usual, your crew did a fine job of getting our yearly bailout jumps completed. Everything went smoothly and we look forward to completing this important training each year. Hopefully in the not too distant future, we will have a better facility in which to do our jumps. Pat did a great job training our first timers as well. They ranged from fresh probies to a seasoned veteran firefighter.

I appreciate your crew helping guide my department and hope to never have to use this important skill, but knowing the training is with each member is reassuring.

We can discuss and arrange for some more quality training from our brothers at AllHands.

Thanks & regards,

Joe
