Subject: Township of Union Fire Dept. Petzl Training

Don, I wanted to take a minute to thank your staff and self for the Petzl EXO refresher end user training and Train the Trainer classes provided to the Township of Union. You have top notch instructors' who were well versed in the system and took extra time looking over our existing equipment and restringing our units contributing to a successful four day class with over 100 members doing their slides. You assisted in saving us money with the recommendation of restringing and also coordinated the prop to rent the mobile bailout trailer to facilitate 3 members doing their slides at the same time with our existing window.

Throughout the classes your staff demonstrated a high level of professionalism and the classes went off without any issues or injuries because of that. I would not hesitate to recommend All Hands Fire to any department in need of specialized training.

Thank you again, Deputy Chief Ricciardi
