Donald M. Colarusso  
All Hands Fire Equipment

Hi Don, I would like to thank you for all the work you have done with us over these past several years. The testing we did with you in June 2010 and evaluations and discussions with you since that time has helped us a great deal. As a result, we are favoring the Petzl EXO as the best solution for our department PES needs. We have just received approval in our capital improvement budget to purchase much needed equipment, with the PES being one of them. The funding for this project should be available within the next two months. So I am hoping to start the purchasing and training process with you in the near future.

Thank You,

  
BC Brian Cleary
